

18 WATT LAYOUT (Richie's improved tremolo)

revized: November 7, 2003

NOTES:

- 1. R26: from 1M to 470k
- 2. C8: from .01 to .022
- 3. Speed pot: from 2M (Audio) 1M (linear)
- 4. Shielded wire from C19 and C15 to V3 pin 1 & 6?
- 5. Shielded wire for the normal inputs
- 6. Also moved C15/R29 to the right side of R27/R28 saving this way some un-needed wire length that can cause all sort of potential trouble.
